**Note:** The San Francisco PD stated to the NRA that this ban only covered “Black Talon” ammunition and no other hollow point ammunition. Black Talon has been out of production for years. Use Caution. The U.S. 9th Circuit Court ruled on 3/25/14 that SF could require firearms to be secured in the home at all times. Either on your person or locked up. The decision also stated more than once that SF only banned the “Selling” of HP ammo in SF and not the possession. The case was not about HP ammo but about securing your firearm in your home. With this ruling no one is sure if it overturned SF ban on possession of HP Ammo. You can read the decision [Here](https://www.handgunlaw.us).

P.A. 15-216, S. 5

Note: You need to go to the link for the statute and read it. It contains many restrictions on what firearms & magazines that can be brought into the state. CT Now has a 10 Rd Limits on Magazines that have not been registered with authorities by residents and those have to be possessed by a certain date. Handgunlaw.us recommends that residents of CT or anyone visiting CT with a firearm read the bill and all other information available on the new law. You can also view the bill Here. More information can be found at the Connecticut Citizens Defense League Inc website.

Note: The Connecticut Citizens Defense League is reporting that the way the law is worded that you can carry a registered Higher Capacity magazine in your firearm but it can only be loaded with 10 rounds. Connecticuts law requiring a magazine be “within” the firearm “limits the number of declared ‘large capacity magazines’ one is able to carry, along with the number of bullets it can contain. (See (7) above) So if you carry spare magazines they have to be 10 round or less type magazines or you are in violation of the law. You can’t under the law carry a higher capacity magazine only loaded with 10 rounds unless it is “Within” the firearm. Will this matter to authorities? No one is sure but that is the way the law is worded.

High Capacity Ammunition Magazines

**Note:** On 3/29/19 US District Judge Roger T. Benitez of the US Dist CT Southern Dist of California Ruled that CA Penal Code § 32310 ban on the possession/importation of Magazines that could hold more than 10 rounds as Unconstitutional and Enjoining Enforcement. He then stayed his decision until appeals were heard.

On 8/14/2020 the US 9th Circuit Affirmed the Original Decision by District Judge Robert Benitez. He also stayed his order until any appeals were heard. The State of California can ask for an en banc panel of judges from the 9th or can ask to go to the US Supreme Court. The ban on mags is still in effect and will be unless Judge Benitez lifts his stay or the 9th Circuit lifts it. This ruling if not appealed would make the California and Hawaii mag bans unconstitutional and their laws on such null of void. This ruling also is in conflict with other District Courts rulings and these are cases the US Supreme Court hears as the lower courts can’t agree. Time will tell

13. I’m not a police officer, are hollow points legal for me to possess?

Yes. They are legal for purchase and possess in your home or on land owned by you. They are legal to possess and use at a gun range. They are also legal to possess while traveling to and from such places. Ammunition lacking a hollow cavity at the tip, such as those with a polymer filling, are not considered to be hollow point ammunition. An example of this can be seen with the Hornady Critical Defense / Critical Duty, Cor-Bon PowRball / Glaser Safety Slug and Nosler Inc. Defense ammunition.
